Model Boats

We stock a wide variety of different makes of model boats. So wide that there is no way we could fit them all on this leaflet. Instead we have just shown a sample of our most popular boats here.

The boats shown here are either ready built or are very easy to build. Smaller boats like the Magic Vee are for small calm areas of water like ponds. The larger boats can cope with rougher water on lakes and rivers. You should avoid using any R/C boat in the sea, as the salt will corrode the electronics very quickly.

All the R/C boats we stock are either electric or yachts. Engine powered boats are banned from most places because they are noisy and leave a film of oil on the water.

If you would prefer to spend time building your boat, we also stock a wide range of models from companies like Billings and Artesania. Some of these can be radio controlled and some are purely for static display. Subjects include sailing ships like HMS Victory, as well as fishing boats, torpedo boats and tugs. These can cost from £80 to over £250. We have catalogues for the major makes in the shop.

Batteries and chargers

The boats on the front page of this leaflet all use 7.2V batteries, similar to those used in many R/C cars. We can supply 3300mA or 5000mA batteries which will give much longer running times than the 1800mA packs that come with the Marlin and Capricorn. These cost £19.99 or £30.99 respectively.

A fast charger is also a popular upgrade for these boats. A Pro Peak charger is only £16.50 and will charge the 1800mA pack in only 40 minutes and a 5000mA pack in two hours. The Fusion charger is £24.99 and can charge the 1800mA pack in 30 minutes and the 5000mA pack in one hour.

Marlin Cruiser

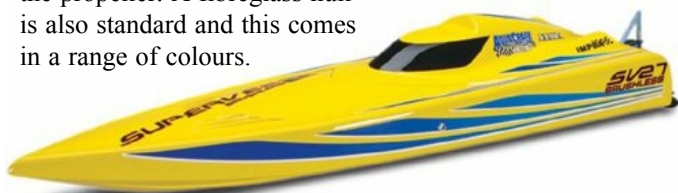

Length: 675 mm

The Marlin is a detailed ready to run model of a pleasure cruiser powered by a single RS540 motor. It comes complete with a 7.2V 1800mA battery pack and a slow charger.

MARLIN DEAL PRICE	
Marlin inc R/C, battery and charger	£89.99
8 AA batteries	£4.00
Total:	£93.99

Super Vee

The Super Vee is a large and extremely fast ready to run speed boat. It features a very powerful water cooled brushless motor and speed controller, these are much more efficient than a traditional brushed motor. A metal outrdrive transmits the power to the propeller. A fibreglass hull is also standard and this comes in a range of colours.

Length: 686 mm

SUPER VEE DEAL PRICE	
Super Vee boat inc R/C	£249.99
Two 7.2V 4200 mah batteries	£55.98
Fusion fast charger	£24.99
Total:	£330.96

Capricorn 54

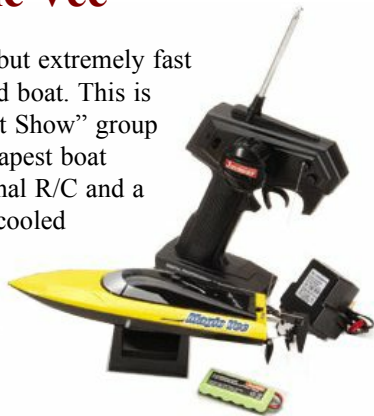

Length: 762 mm

The Capricorn 54 is ready to run speed boat that is big enough to cope with open water and is reasonably fast. It includes an 1800mA battery and a 9 hour charger, although the batteries and chargers described in the box above can also be used to improve running and charging times.

CAPRICORN 54 DEAL	
Capricorn 54 inc R/C, battery and charger	£89.99
6 AA batteries	£3.00
Total:	£92.99

Joysway Magic Vee

The Magic Vee is a tiny but extremely fast (20km/h) ready to run speed boat. This is the boat that won a "Gadget Show" group test despite it being the cheapest boat tested. It features proportional R/C and a powerful for its size water cooled motor. The Magic Vee's hull comes in either red, white or yellow. Each hull colour represents a different R/C frequency so you can race three at once. A rechargeable battery pack and charger are included.

Length: 270 mm

MAGIC VEE LITE DEAL	
Magic Vee inc R/C, battery and charger	£44.99
Total:	£44.99

Joysway Offshore Lite Warrior

The Offshore Lite Warrior is the Magic Vee's big brother. It is faster (30km/h) and being bigger can cope with rougher water. Like the Magic Vee it has proportional R/C, a bigger water cooled motor and a choice of three hull colours (red, yellow and white) and frequencies.

Length: 420mm

OFFSHORE WARRIOR LITE DEAL	
Offshore Warrior Lite inc R/C, battery and charger	£69.99
Total:	£69.99

Joysway Offshore Warrior

Length: 450mm

The Offshore Warrior is similar in size to the Lite version but much faster (50km/h) and far better engineered. It has a much more powerful and efficient water cooled brushless motor and speed controller, a fibreglass hull and a metal rather than plastic outdrive to transmit the power to the propeller. An interference free 2.4 ghz R/C also comes as standard.

OFFSHORE WARRIOR DEAL	
Offshore Warrior inc R/C, battery and charger	£149.99
11.1V 2200mah lipo battery	£19.99
LX40 charger	£29.99
Total:	£199.97

Joysway X-Blaze

The X-Blaze is a much bigger and somewhat faster (60km/h) boat than the Offshore Warrior. Being bigger it can cope with rougher water. It has a much more powerful water cooled brushless motor and uses bigger batteries. Like the Warrior it has a fibreglass hull, 2.4 ghz R/C and a metal outdrive.

X-BLAZE DEAL	
X-Blaze inc R/C, battery and charger	£229.99
Two 7.4V 4000mah lipo batteries	£89.98
Sigma EQ charger	£54.99
Total:	£374.96

Length: 710mm

VICTORIA DEAL PRICE

Victoria yacht kit	£109.99
2 channel radio control inc 1 servo	£40.00
High power servo	£24.00
12 AA batteries	£6.00
Glue and paint	£10.00
Total:	£189.99

Thunder Tiger Victoria

The Victoria is a large yacht with a nicely detailed superstructure. It is fairly simple to build, needing the hull to be painted, the radio control installed and the mast and sails rigged.

Length: 780mm

DISCOVERY DEAL PRICE

Discovery yacht	£144.99
4 AA batteries	£2.00
Total:	£146.99

The Discovery is a detailed model of an ocean going yacht. Featuring a fibre glass hull in red, green or blue and sails made of rip stop nylon, this is an excellent first yacht.

It comes almost ready built, you just have to fit the mast and sails, insert the batteries into the radio control and you are ready to sail.

Length: 610mm
